Final Election On Councilmen To Be Held Tuesday

Two Bond Issues On Ballot; Polls To Open At 7

Final election for choosing four city councilmen will be held the coming Tuesday, April 17. The polls will be open from 7 a. m. to 7 p. m. and the voters of Ocean Beach will vote at the same polling places as announced for the March 13 primary election.

At the primary the two who led in the voting were nominated and are on the ballot next Tuesday. The voters in each case will be asked to vote for one. In the coming election, the race for the council will be city-wide, giving all the voters of San Diego a chance to elect the four councilmen.

In the first district, which includes Ocean Beach, the contest is between the incumbent, Gerald C. Crary and Carl Schroder of Ocean Beach. In district 2, Charles B. Wincote, incumbent, is running against Carr Beebe, in district 3, Paul J. Hartley, incumbent, is lined up against Lewis Lipton; and in district 4, Ernest J. Boud, incumbent, has Richard J. Gribalva for his opponent.

Two bond issues, one for $2,000,000, and one for $6,000,000, are to be passed on by the voters Tuesday. Because of their importance more detailed information on them is being published elsewhere in The News this week. A third proposition will be on the ballot in which the city is asking authority of the voters to transfer 11.23 acres of tidelands to the federal government for use of the Coast Guard.

First guest speaker to open this evening service will be Dr. Thomas Law Coyle, pastor of the San Diego First Presbyterian church, speaking on "The Relationship of Home and Church." Jerry Sullivan, baritone of the First Congregational church choir, will be the guest soloist.

The officers of the Young Adult Fellowship are: Art Roshon, president; Howard Williams, vice-president; Grace Goetz, secretary; Dee Burbank, treasurer.

DELINQUENT TAX DATE ONLY WEEK AWAY SAYS COUNTY TAX COLLECTOR

April 20, the delinquency date for the second installment of taxes on real estate is now only about a week away. Claggett, the county tax collector.

Water Prop. One Declared Vital; 'Yes' Vote Urged

(By Citizens' Water Bond Com.)

Faced with the necessity of making immediate improvements to the city water system, voters will be called upon next Tuesday to approve a proposition for urgently-needed additional pipe lines, a treatment plant that will provide filtered water for every faucet, and a regulating reservoir.

The measure, known as Prop. 1, is designed to put the city abreast of its water needs, which have increased far beyond present delivery and filtering capacities. Factors influencing this condition are unanticipated population growth, tremendous expansion of military establishments, and aircraft and other war industries, since Pearl Harbor.

The improvements which voters are asked to approve by authorizing a $6,000,000 bond issue are pipe lines to carry additional supplies from San Vincente or El Capitan, costing $4,050,000; treatment plant with 60,000,000 gallons daily capacity, $1,875,000; and regulating reservoir with a 20,000,000 gallon capacity, located near the treatment plant for use in meeting peak demands, $300,000. Of this amount, $225,000 will be met by budget allotments. A two-thirds vote is necessary for passage.

Emphasis is placed on the fact that these improvements must ultimately be made in any event when Colorado river water is available, but are desperately needed right now.

Mayor Harley E. Knox is chairman of the committee.

Ocean Beach Over Top In Red Cross Drive By $1848.38

Ocean Beach community went "over the top" in the 1945 Red Cross drive, ended last week, by $1,848.38, Mrs. Morris Fried, district chairman, reported this week. She and Mrs. James A. Abbey, co-chairman, had 60 women working under them in the campaign and a real effort was made toward a complete canvass. Mrs. Fried stated that she wished to publicly thank all the women for their splendid work. Mrs. Abbey, she said, was handicapped by illness early in the campaign, but later "carried on" in her part of the community.

Quota that had been set for this community was $4,075, so the total collected was $5,923.38. The quota was reached considerably before the end of the period set for the drive, and this community is believed to have been one of the very first in San Diego county to report the quota raised. In fact, the record here was about the best that this community has done in a Red Cross campaign.

In addition to the total mentioned, women working under Mrs. Fried collected $422 from Ocean Beach folks at the Strand Theatre, which was reported to Red Cross headquarters separately. Manager Don Thomson really figured that this should be included in the Ocean Beach total, reports Mrs. Fried.

High praise to the Ocean Beach women for their efforts was given by Mrs. Arthur Loring of San Diego, the area chairman.

The Kiwanis committee that canvassed the local business district also made a splendid record, reports Mrs. Fried. Their total is included in the figures already given, she said.

Ladies' Night was observed at the meeting Tuesday night of the Kiwanis club of Ocean Beach, with nearly 100 per cent attendance of both the men and women. Honored guests were Von Marshall, district lieutenant governor, and Mrs. Marshall, from the La Mesa club. Marshall spoke briefly of the Kiwanis divisional meeting, held April 5 at Calexico. Dr. W. B. Oster and James F. Roberts of the Ocean Beach club were among the 117 Kiwanians in attendance, he said.

Other visiting Kiwanians were Ernest Boud of the East San Diego club, city councilman; James McKinney and Henry Woods, both of the San Diego club. Milt Lancaster introduced Lieut. Fred Tripp, an old schoolmate friend whom he had not seen for 21 years.

A feature of the program, for which Rev. James F. Roberts was chairman, was piano solos played by Mrs. Thelma Dewar of the local Bank of America staff.

Speaker of the evening was Dean Peterson of San Diego State College, who gave a thought-provoking and timely address on world affairs, paying particular attention to the various international conferences that have been held, both for the purpose of furthering the Allies victory in this war and for arranging an effective and lasting peace.

He expressed confidence that out of these various conferences there would result more effective unity and cooperation among the nations of the world than was the case following the first World war.

Second Son, Former Ocean Beach Lady, Killed In Europe

Mrs. R. C. Lipscomb, former Ocean Beach woman, now residing at Santee, Calif., was called on to mourn the death of a second son killed in this war, according to news despatches received here this week. She had word from the war department that her son, Donald Vickers, 22, had been killed in Belgium on March 20. He was a member of an Army ordnance bomb disposal unit.

Her other son, Pfc. Gale H. Vickers, 21, an infantryman in the Army, had been killed in action in the New Guinea island campaign July 26, 1944.

Donald, who was a technician fifth grade, had served in Puerto Rico and Panama for about a year before he was sent overseas to Europe in January 1944. Gale left for the Pacific war theatre in March 1944.

Both boys are the sons of Mrs. Lipscomb and Olin C. Vickers, a resident of Florida. They were born in Kansas and had lived here for five years before entering the armed forces.

Committee Cites Advantages From Bay Development

Ocean Beach Growth Assured Project Boosters Say

(By Mission Bay Development Commitee)

Ocean Beach will be in favorable position to receive direct, substantial benefits from development of Mission Bay as a great land-and-water playground, should San Diego voters approve Proposition 2 on the ballot at next Tuesday's election.

Based on the experience of communities throughout the nation which through good fortune were located close to similar recreational areas, real estate values here, and in Mission Beach and Pacific Beach, will be favorably affected, new businesses and payrolls established, and population growth assured. Invariably, it is emphasized, a demand is created for properties both for residential and commercial purposes, with corresponding increases in prices.

Clearing the way for development of the bay, the state Senate has approved transfer of 2600 acres of tidelands from the state to the city of San Diego. The Assembly is expected to concur in the action this week. An additional 1000 acres, mostly tidelands,, is to be acquired by the city, making a total of 3600 acres available for the purpose.

The first step will be taken with passage of Proposition 2 on the ballot next Tuesday providing $2,000,000 for dredging, rights of way, highways, bulkheads, jetties and other related items.

Development of Mission Bay as the finest public playground in the United States, and, as an irresistible lure to thousands of vacationists annually, is receiving widespread support, according to a representative committee of which Mayor Harley E. Knox is chairman.

"Mission Bay with virtually unlimited opportunities for recreation will make San Diego the aquatic center of the west coast, and give us a tourist attraction superior to anything of the kind in the United States," the committee stated.

"Why is there a shortage of new telephone facilities?"

It's true—there is a shortage of new civilian telephone facilities. It is because practically all telephone materials, manufacturing equipment and manpower have been working to produce communications equipment for war.

Since the National Defense program started in 1940, we have supplied the needs of Army, Navy, war producers and most others. In all, the Bell System has increased the number of telephones in service by over 4½ million.

The equipment to do this came from reserves that are about used up—and the manufacture of telephone equipment for civilian use has been practically suspended for more than two years. That's why we cannot fill orders as fast as we'd like.

We are doing everything we can to reduce the time you may have to wait. Meanwhile we appreciate your understanding and co-operation.

Ocean Beach News
Dear Editor:

The following invitation to visit the beach was recently received by a non-resident:

"I say, you old Lobster, why not bundle the little Shrimp into the buzz buggy and week-end with us some week-end? If the kiddies want to come along, pack the little Sardines in with you, be glad to have them." Better bring along some Live Savers as candy is scarce around here; but never mind the smokes—you will find plenty of Snipes along the water's edge."

"You will not want for Diversion for while you are getting a sun-tan you can watch the Sand spit and see the Cuttle fish. You will Sea Urchins playing tag with Ebb and Flow and the kiddies can join in the fun with the other Buoys and Gulls. If you are musically inclined you may Tuna fish, run the scales and listen to a few Neptunes."

WILL YOU JOIN HER?

Now that her Navy husband is fighting for his country overseas, Mrs. Eleanor Forsberg has decided to back him up by fighting on the factory production front. She is a dispatcher in the Manifold division of the Ryan Aeronautical Company, where she helps to fill Ryan's huge orders for manifolds used on the B-29 Superfortress and many other famous fighting planes. Ryan needs hundreds more like her to help build, not only Ryan manifolds, but Ryan's own fighting planes for the Navy. Why don't you take a job there? The company's downtown employment office at 1023 4th Avenue is always glad to talk to visitors and tell them about good jobs now open at Ryan.

Their very LIVES *depend on you!*

WHAT CAN YOU SPARE THAT THEY CAN WEAR?

THE VERY LIVES of multitudes in war-torn countries depend on the filling of their desperate need for clothing.

The demands of America's armed forces and civilian needs are so great that only a small amount of new clothing can be spared for overseas relief.

But *all* of us *can* spare some serviceable used clothing—to provide the 150 million pounds that must be collected this month for that purpose.

In the clothes closets and attics of America's homes is enough usable, spare clothing to help care for the 125 million men, women, and children—in Europe alone—who have given all but life itself toward the same lasting peace we all are fighting for.

Let's get it out—and send it off—NOW!

What YOU Can Do!

1 Get together all the serviceable used summer and winter clothing you can spare. This includes: Men's, women's, children's, and infants' wear, and shoes. Overcoats, topcoats, suits, dresses, shirts, skirts, jackets, pants, work clothes, gloves, underwear, sleeping garments, robes, sweaters, shawls, and all knit goods. Also blankets, bedclothes.

2 Take your contribution to your local COLLECTION DEPOT *now* or arrange to have your LOCAL COMMITTEE collect it before April 30th.

3 Support your Local Committee not only with your clothing contribution but also with your time, effort and energy.

What Can YOU Spare That They Can Wear?

In the war-torn countries ravaged by Nazi hordes, 125 million people—*30 million of them children*—are in desperate need of clothing—*your* clothing—your *spare* clothing—to shield them against death from exposure, from disease, and misery. Every garment helps. For full information, call Tom Plant, Ocean Beach Committee chairman, Bayview 5943.

SHADOWS OVER SAN FRANCISCO—

The world is praying that out of the United Nations conference in San Francisco next month will come the basis for a lasting peace.

Recent developments in the war have added to the necessity for a permanent peace if civilization is to survive. One of these developments is the new British super-super bomb known as the "town-buster." It weighs eleven tons. The destructive force of these bombs, which are as tall as a two-story building, can hardly be imagined.

The other development is the new fire bomb American planes have used on Tokyo, Nagoya and Osaka. This weapon sprays flaming gasoline over a wide area in a jelly form which causes it to stick to buildings and other objects. Photographs taken by our reconnaissance planes indicate its deadly effectiveness. There is no doubt that it would wreak havoc even in cities of modern construction.

If we can use these weapons against the aggressors there is nothing to stop future aggresors from developing similar weapons to use against peace loving nations.

So the "town-buster" and the new fire bomb take their places along with the robot bomb as a threat to the civilized world. If Hitler and Hirohito had had these instruments of death at their command and developed to the degree that they will be in another generation, it is not unlikely that the Axis could have succeeded in its conquest for world domination.

So, when the representatives of the nations gather in San Francisco, they will meet in the shadow of these deadly weapons. All must work together for peace. The price of failure would be . . . . .

They dare not fail!

This is "CLEAN-OUT-YOUR-CLOTHES-CLOSET WEEK"

RIGHT NOW, 125 million innocent men, women, and children in war-torn European countries alone, are in pitifully desperate need of clothing. If every American family will make this week "CLEAN-OUT-YOUR-CLOTHES-CLOSET WEEK," enough spare clothing, shoes, and bedclothes will be obtained to go far toward relieving the suffering of these people. Will you help? Then call your local UNCC Committee for full information.

Through the kindness of Edward Shea of 4729 Narragansett Ave., our call for a small radio was met immediately. He gave up his own personal radio. He is not only a Sea Scout but a fine American. The serviceman he gave it to is only a boy but has many service ribbons. He is from a family of 13, with six sisters and all the boys in service. One brother was lost over Germany. Edward also gave a rubber ball for use in the hospital. I wish many more balls would be donated. They are badly needed as are golf clubs.

Wednesday is Cookie day and more cookies are needed. More sick and wounded are arriving all the time. We have sugar and grease at the center, so please take a little time and bake a cake, a few cup cakes or a few cookies. These are our wounded men who heve been wounded in defending our rights and privileges. Our boys in the trenches today are doing their part, please do yours. Go to the blood bank, save grease and papers, or anything that will help win this terrible war. Be a true American.

Three weeks of it he spent at Algona, Iowa taking back Mrs. Fraser and their son, Roger Eugene. Upon their return by car they visited three days in Los Angeles. Their present address is Jacumba, Calif.

Mrs. Margaret Koch, 4376 Saratoga Ave., has received word from her husband, Second Lieut. Richard A. Koch, stating that he has recently been transferred to an American Army air corps base somewhere in Italy. His new duty is with a heavy bombardment group of the 15th Air Force which has flown more than 170 bombing missions. He entered the service Dec. 8, 1942 and is a trained bombardier.

— V —

For his devotion to duty after his ship was damaged by an enemy torpedo in Leyte Gulf last October, a letter of commendation has been given Everett Hilton Wager, chief boatswain's mate, USN, of 5024 Newport Ave., the Eleventh Naval district reports. Chief Wager was aboard the USS Honolulu in the Leyte Gulf battle. He received the commendation from the cruiser's skipper, Capt. Harry Raymond Thurber, USN, for his part in "improving living conditions and raising morale of the ship's company" aboard the badly damaged vessel. While aboard the Honolulu, Chief Wager also saw action in the Marianas, participating in the bombardment of Saipan, Tinian and Guam.

Joseph B. Klucewich, aviation chief machinist's mate, USN., of 2124 Cable St., has returned from a tour of duty in the Pacific, where he was attached to Air Group 20, based on one of the Navy's big aircraft carriers. Chief Klucewich was one of the maintenance men who kept the Air Group's dive bombers armed and conditioned for combat, thus contributing to the success of our carrier strikes against such targets as the Bonins, Palau, Formosa, the Philippines and French Indo-China. The 37-year-old chief is married to the former Frances G. Nance. Mrs. Klucewich and their three young sons live at the Cable street address. Chief Klucewich is a veteran of 18 years in the Navy.

Too Much Booze Also A Problem 112 Years Ago

Photo copy of the first issue of the Yarmouth Herald of Yarmouth, Nova Scotia, Canada was brought into The News office last week by E. J. Baker of 4886 Long Branch Ave., a newspaper plant at which he was employed for 43 years, under three generations of the Lawson family ownership. Faded with age, the copy is nearly 112 years old, having been printed on August 9, 1833.

Of interest is the evidence in the issue that pleasure, debts and intemperance were parts of the life of the Nova Scotians in that day. Three ads in the issue read:

"Notice—The subscribers offer for sale, a superior double seated pleasure wagon. White & Flagg.

"Notice—Robert Black requests all persons indebted to him by note or book account since 1817 to call and settle same; and all persons in any manner indebted to him to come forward and discharge the amount of their accounts, so that he may be able to meet the demands of his creditors."

"Prospectus of a weekly paper to be entitled, The Christian Reporter—To the subject of temperance, or total abstinence from the use of ardent spirits, special attention will be paid; assured, that intemperance presents a most formidable barrier to the extension of religion, and the enjoyments of personal, domestic and civil well-being, opening an actual floodgate to the overwhelming torrents of misery and vice in all their diversified shades and deplorable characters."

Of interest also is the fact that the Yarmouth Herald has continued through the years under the ownership of one family, the Lawson family, having been founded by Alexander Lawson. On Aug. 8, 1883, the Herald issued a centenary edition, celebrating 100 years operation of the same paper by the Lawson family.

Double Horror Show Coming April 19

One of the horrific scenes from "House of Frankenstein," starring Boris Karloff, with J. Carrol Naish and Elena Verdugo.

New Horror Film

Universal's latest contribution to filmdom's Hall of Horror, "House of Frankenstein,' which comes next Thursday only to the Strand Theatre, embodies the three most terrifying supernatural characters of fiction and drama—the Frankenstein Monster, the Wolf Man and Dracula. A vengeful scientist, portrayed by Boris Karloff, is the motivating character who resurrects these unearthly creatures, to serve his own evil purpose.

He Works At It

Lon Chaney, who suffers more for his art than anyone in Hollywood, dropped 17 pounds in the confining mask and costume of the Mummy which he wears in his current Universal thriller, "The Mummy's Curse."

The film, coming to The Strand theatre Thursday only, stars Chaney and features Peter Coe, Kay Harding, Martin Kosleck and Virginia Christine.

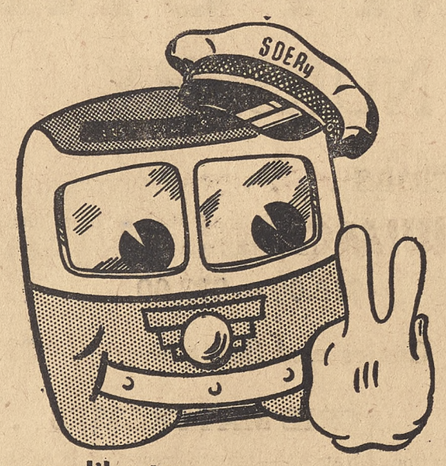

This wasn't Chaney's first experience in the wrappings of the Mummy, having appeared in the role several times.

Hayek's Book "Road To Serfdom," Makes Lively Discussion

Frederick Hayek's book "Road to Serfdom," created a lively discussion at the Monday meeting of the Literature group of the Ocean Beach Woman's club, and was the feature of a program in which several members reported on books or articles of special interest read during the past few months, also on letters received from overseas servicemen. The recent review of Hayek's book in the Readers Digest was used.
